## Healthy, Robust People Popular Everywhere

Good Health Creates an Attractive, Magnetic Personality and Wins Admiration.

Healthy People Are Happiest Pepto-Mangan Has Put Thousands into the Healthy Full-Blooded Class.

How the red-blooded, energetic and attractive man or woman is envied by those who feel that it will always be their unfortunate lot to be thin, pale and weak-bodied.

And yet why continue to envy men and women who possess a vigorous, healthy physical condition and an attractive, magnetic personality? Poor health and lack of vitality are often merely the result of impoverished blood.

Gude's Pepto-Mangan is for people whose bodies suffer from lack of proper blood nourishment. Pepto-Mangan enriches the blood and increases the number of healthy, red blood cells, which are so necessary to carry the proper nourishment, vigor and strength to every part of the body.

Physicians introduced Gude's Pepto-Mangan to the public because they knew that it contained the very properties that are so sorely needed to build up thin, watery blood. For your convenience Pepto-Mangan is prepared in two forms, liquid and tablet. Both contain exactly the same medicinal value.

Insist on the genuine Pepto-Mangan. Be sure you are buying the genuine Pepto-Mangan, ask your druggist for "Gude's". And be sure the name "Gude's" is on the package.

Chas. D. Baird, 634 E. 5th St., Chattanooga, Tenn., has our thanks for \$1.00, which carries his subscription eight months from date of expiration, Jan. 6, 1920.

## XMAS TREE VERY SUCCESSFUL AFFAIR

The Christmas Tree and Entertainment at Owen Church Christmas Eve was well attended and a very successful affair. About forty dollars had been raised to buy presents and the result was a well-filled tree. The program as published in the News last week was carried out and was very well presented, the little folks taking part with enthusiasm. It was prepared under the direction of Misses Jennie Harris and Nell Leland, and altho' they had only a short time in which to prepare the program and train the performers, it was very creditable. Mr. Curtis' address of welcome was well delivered, and prayer was offered by Rev. Dugin. "Santa Claus" was impersonated by Albert Cushman, of Chattanooga, who was very witty. Excellent order prevailed, which is a credit to the town.

Miss Wilma Lawson is the proud recipient of the box of candy offered by the Sunday school to the young lady collecting the most money for the Xmas tree. The little lady secured \$25 and was therefore the winner of a nice box of candy.

## WOMEN WAR WORKERS EAGER TO SERVE, GO TO AID ARMENIANS

Mary Vail Andrees, Only Woman to Receive Distinguished Service Medal, Heads Party.

Dissatisfied with uneventful civilian life, after two years' vivid experience as workers abroad in the world war, a party of young women, led by Miss Mary Vail Andrees, of New York City, have just gone to the Near East.

MISS MARY VAIL ANDREES, Distinguished Service Heroine Who Now Goes to Near East.

where nearly a million people are suffering from disease and starvation. Miss Andrees had returned to this country after serving for the Red Cross, but when she read of the sad plight of the Armenians, she at once offered her services to Near East Relief, the former American Committee on Armenian and Syrian Relief, which already has saved thousands of lives in Western Asia. Miss Andrees is the only American woman war worker who was awarded the Distinguished Service Medal by Congress. Most of the other members of her party likewise served with honor for the Red Cross and other war service organizations.

Among the other members of the group are the Misses Frances and Betty Anderson of New Canaan, Conn., who were decorated with the Croix de Guerre by the French Government; Miss Margaret Milne of Washington, D. C., who was a member of the Hoover Relief Commission for Italy, and Miss Alex Sidney, an English woman who served for three years with the British Relief Commission in Serbia. Miss Doris Nevin, another member of the party, is a daughter of the late Ethelbert Nevin, the composer.

Col. William N. Haskell, commissioner to the Near East for the Paris Peace Commission and official representative of the Near East Relief, has cabled that the relief workers now in the field are overwhelmed by the magnitude of their task. Col. Haskell says 800,000 Armenians will starve before the next harvest unless they are given aid and 120,000 orphan children face death from hunger and exposure.

Thousands of refugees are daily being brought to the relief centers from the deserts.

J. L. Newsom, St. Elmo, in renewing subscription says: "My subscription expired last week, and I don't like to miss a single copy of the grand old paper."

D. A. Ragsdale, of Happy Hollow, was here yesterday en route to Jasper.

## ENJOYS HIS 3 MEALS A DAY

Mr. Wooten Thinks Much of ZIRON, Because It Made Him His Old Self Again.

Sick people do not get much out of life. In order to enjoy your meals, to do your work well, you must be strong and healthy.

Pale, weak, nervous people frequently need iron to enrich their blood and to restore vitality to their system, and a good way to supply the iron is to follow the example of Mr. Clayton Wooten, of Scotland, Ga., who used Ziron Iron Tonic and has this to say about it:

"I have taken Ziron according to directions and I can truthfully say that it is a fine tonic. It has done me all the good. Since I began taking it, I have gained eight pounds in weight and enjoy eating three meals a day. I shall do all I can to recommend Ziron."

Try Ziron! Your druggist sells Ziron on a guarantee to refund your money if the first bottle fails to benefit. You cannot lose anything, but very likely will gain much, by getting a bottle of Ziron, today!

Your Blood Needs ZIRON

## GLASS WINDOWS HALTED DISEASE

CHEAP VACUUM CLEANER WILL LOWER TUBERCULOSIS DEATH RATE 50% WHEN INVENTED, SAYS AUTHORITY ON THE "GREAT WHITE PLAGUE."

On the day that glass windows were invented the death rate from tuberculosis dropped thirty per cent, and when the day comes that a cheap, efficient vacuum cleaner is perfected that will sell at a price permitting everyone to have one the death rate from the "Great White Plague" will drop fifty per cent more, according to J. P. Kranz, executive secretary of the Tennessee Anti-Tuberculosis Association. Fresh, clean air and sunlight are the two things most necessary to health, and while windows have allowed sunlight to enter our homes, still our rugs and carpets are the haven for millions of germs which are always ready to infect us, Mr. Kranz said at a recent health conference in Nashville.

"Until that vacuum cleaner is perfected, and even after it is in use, the Tennessee Anti-Tuberculosis Association must continue its state-wide campaign against disease," said Mr. Kranz. "The state association does not confine its fight to tuberculosis; it believes that the extremely high death rate Tennessee has from this scourge is due to a low public vitality which has been reduced by unhealthy living conditions and other diseases. So far our fight is to improve community health, and when we attain our objective we will have not only wiped out tuberculosis, but we also will have abolished other diseases and ills."

"To maintain our staff of public health experts we have been selling these Little Penny Red Cross Christmas Seals throughout Tennessee for the past ten years. The pennies that come in to us at Christmastide have aided us to establish Sanitariums, Preventoriums, Fresh Air Camps and Open Air Schools throughout the state."

"During the past year our workers have been in every county and we found so much sickness that we have adopted for our state slogan, 'A Public Health Nurse in Every County.' Our association works hand in hand with the county boards of health, and with the state boards of Health, Education and Charities. Our work has been endorsed by Governor Roberts, who has volunteered to act as state chairman for our campaign to sell seals this year."

"Last year more than 4,500 Tennesseans died from tuberculosis. And this disease is curable, preventable and controllable. We have discovered that every person who dies from consumption leaves eight persons infected with this plague. So there are more than 36,000 tubercular people in Tennessee today. It is our duty to seek out these people and to cure them and to prevent them from infecting others. The money we collect in the counties will be expended in the counties in health work. We hope that the Seal Sale this year will result in a public health nurse in every county of this state."

Jesse Abrams, of Whitwell, was here Friday, driving a Claybank Roadster. He had been over in Rankin's Cove where he spent Xmas with his sister.

W. L. Goodwin, the pleasant manager of the Pryor Hosiery Mills, Jasper, remembered us financially this week.

## PRYOR HOSEIERY MILLS OPERATIVE

The Pryor Hosiery Mills, of Jasper began operations this week with twenty operatives under direction of W. L. Goodwin, superintendent.

Owing to the limited number of machines obtainable, start was made with a small force, which will be increased as fast as machines arrive. A shipment is expected by express about the 15th of the month.

At present the foot is being knitted to leg of stocking, in women's and girl's sizes. It takes about three minutes to knit a foot, and then it is taken to the looper, who matches the stitches, and completes the process on another machine.

The force is a skilled one, formed mainly of Jasper girls and women who have been working elsewhere.

The plant has been fitted up splendidly and is an ideal work room, light and airy and well-heated. The finishing touches of carpenter work are being done this week by Fred Smith and assistant.
